Dear Michael and Julie,

We have been looking at our newly painted kitchen cabinets, kitchen, dining and living rooms for a few days now. Every time I come in the door I am amazed at the transformation of the drab, brown, dark and uninteresting cabinets to a light, bright and appealing space. The paint work has made a totally different place out of our kitchen.

I would definitely recommend you to anyone I may talk with about painting. The cabinets look entirely new and the other rooms are fresh, clean and make our home a friendly and inviting place to be.

I was impressed with Michael. He was meticulous in his work and the cleanup afterward left everything in excellent shape.

I have had cupboards painted in the past but this is the best job yet. The old 1975 cabinets are now in the 21st Century and our kitchen can take it's place proudly with some of the nicest in the design magazines and TV shows. The price was a great savings to us too. We are retired and doing things on a budget.

Good work at a reasonable price is always a joy to find. You have my permission to use my name, address and phone number in any promotional material you may be generating. A very happy customer.

Sincerely;
