Re: Coastal Colors Painting Company

Several months ago we contracted Coastal Colors to paint the exterior of our home in Poway.

Our property needed some repairs to cracks that had appeared throughout the stucco. The repairs were practically invisible and we were delighted with the overall results. The work was to a high standard and I was very happy with the color combination I had chosen – a deep sand with cream trim. My home really stands out and I am very proud of its appearance.

Michael, the Contractor, was on the job throughout and oversaw all the work. The crew were also very cordial and approachable. I thoroughly recommend Michael and his team to anyone seeking a reliable & professional company who deliver exactly what they promise. We were approached by several of our neighbors who commented on the quality and results and have since used Coastal Colors themselves.

Sincerely,

Jackie Marrone
